THE NEW **TESI** SERIES

THE NEW **TESI** SERIES

L'elevata definizione e naturalezza nella riproduzione delle voci, unite alla risposta ai transienti veloce e precisa, caratterizzano tutti i diffusori della nuova linea TESI. I tweeter utilizzano cupole di seta molto leggera, potenti magneti al neodimio ed un'esclusiva camera di risonanza posteriore. I mid-woofer sono dotati di coni in polipropilene rinforzato con mica e rifasatori centrali, per migliorare risposta e dispersione alle medie frequenze. Il nuovo woofer di TESI 561, con cono in polpa di cellulosa, assicura una considerevole capacità dinamica, con basse frequenze calde e corpose.

The remarkable definition and naturalness in the voice reproduction, combined with fast and accurate transient response, characterize all speakers of the new TESI series. The tweeters use very light silk dome, powerful neodymium magnet and an exclusive rear chamber. The mid-woofers feature special polypropylene cones stiffened with mica and central phase plugs, to improve response and dispersion at the medium frequencies. The new woofer of TESI 561, with cellulose pulp cone, ensures a considerable dynamic capacity, with warm and full-bodied basses.

TESI 561

floor-standing loudspeaker
3-way, bass-reflex
30 ÷ 150 watt suggested amplifier
4 ÷ 8 ohm amplifier load impedance
35 ÷ 22000 hertz response
92 dB (2.83 V / 1 m) sensitivity
160 mm woofer
160 mm mid-woofer
26 mm dome tweeter
180/2800 hertz crossover
180 x 890 x 300 mm - 13.7 kg
• bi-wiring / bi-amping terminals

• finishes : BLACK OAK / WALNUT vinyl

TESI 261

book-shelf loudspeaker
2-way, bass-reflex
30 ÷ 120 watt suggested amplifier
4 ÷ 8 ohm amplifier load impedance
45 ÷ 22000 hertz response
91 dB (2.83 V / 1 m) sensitivity
160 mm mid-woofer
26 mm dome tweeter
2500 hertz crossover
180 x 362 x 275 mm - 5.8 kg

• finishes : BLACK OAK / WALNUT vinyl

Inserendo nel condotto reflex il tampone in dotazione a TESI 241 e TESI 761, è possibile interfacciare le basse frequenze con la stanza.

By fitting the foam plug supplied with TESI 241 and TESI 761 into the reflex vent, you can tune the low frequencies with the room.

TESI 241

book-shelf loudspeaker
2-way, bass-reflex
30 ÷ 80 watt suggested amplifier
4 ÷ 8 ohm amplifier load impedance
58 ÷ 22000 hertz response
90 dB (2.83 V / 1 m) sensitivity
120 mm mid-woofer
26 mm dome tweeter
2700 hertz crossover
140 x 245 x 180 mm - 2.5 kg
• foam plug supplied

• finishes : BLACK OAK / WALNUT vinyl

TESI 761

centre channel loudspeaker
2-way, bass-reflex
30 ÷ 140 watt suggested amplifier
4 ÷ 8 ohm amplifier load impedance
45 ÷ 22000 hertz response
93 dB (2.83 V / 1 m) sensitivity
2 x 160 mm mid-woofer
26 mm dome tweeter
2300 hertz crossover
460 x 180 x 240 mm - 7.3 kg
• foam plug supplied

• finishing : BLACK OAK vinyl
